

## 4th Cross-Border Post Keynesian Conference

Economics & Finance Dept. Buffalo State College  
October 9-10, 2009

### Call for Papers

#### Fourth Bi-Annual Cross-Border Post Keynesian Conference “Financial Crisis and Reform”

Economics & Finance Department  
Buffalo State College, Buffalo, NY, USA  
October 9-10, 2009

The “Cross-Border” Conference has historically focused on papers and sessions from the Post Keynesian perspective and participants have come from institutions regionally located along the eastern Canada/US border. This year, however, we invite papers and sessions from all heterodox perspectives. The theme of the conference is “**Financial Crisis and Reform.**” While we expect to publish a book related to the theme, papers on all topics and perspectives are welcome.

The Conference includes a **keynote panel session**. We are pleased to announce that confirmed speakers are **Jan Kregel** (United Nations and University of Missouri–Kansas City), **Robert Pollin** (University of Massachusetts–Amherst), and **L. Randall Wray** (University of Missouri–Kansas City and Levy Economics Institute).

Both complete session and individual paper proposals are encouraged. Interested contributors are requested to send proposals using the form found at the Conference website (<http://buffalostate.edu/economics/pk2009.xml>). A complete session proposal should include 3-4 papers, 1-2 discussants and a session chair. We also encourage proposals from graduate students. The deadline for proposed papers and session is **April 1, 2009**. The Conference committee will consider all proposals and notify you of acceptance or rejection by **April 30, 2009**. Presenters should submit the full paper by **September 1, 2009**.

Proposals (or inquiries) should be sent electronically to Prof. Joëlle Leclaire at [pk2009@buffalostate.edu](mailto:pk2009@buffalostate.edu)

Other conference information (registration, accommodation, travel, etc) can be found at <http://buffalostate.edu/economics/pk2009.xml>

Tours of Buffalo’s famous architecture (including buildings by Wright, Sullivan, and Richardson) and Niagara Falls will also be arranged for participants and their guests.
